Dear Doctor,
Prioritise glycemic control & weight management for
enhanced diabetes outcomes says ADA 2024 guidelines

ADA 2024

**Weight is a primary treatment
target along with glycemia²**

**“High-to-very-high” efficacy in both
glucose control and weight efficacy
- in PwDs with excess weight**

This is a model and not a patient

ADA = American Diabetes Association | PwD = People with Diabetes
